Tumps change register

v14 of the DoBIH (Easter 2014) to v14.1 (August 2014)

Note: this change register includes all Tumps, not just those previously part of the P30 Appendix. However, it is only concerned with data relevant to each hill's listing as a Tump, so, for example, changes in height leading to a Corbett Top becoming a Murdo (or vice versa) are not covered here.

New Tumps

There were at least two factors that contributed to the number of new Tumps in this release (61, including 5 Sims); first, in May I went through some very old notes I'd made on hills that looked from the 1:25k map as though they didn't quite make it. Some of them turned out to, of course, once the 1:10k was consulted. Second, much to my embarrassment I discovered an entire area of region 21B that I'd completely missed out of the original survey; the rate of lowland Tump bagging in Scotland is clearly low enough that no-one spotted 10 hills missing from the map for over a year!

Then there was the usual rate of discoveries by the eagle-eyed Tump bagging community. Of particular note is 18938 Sule Stack, which is a very, very long way from anywhere.

18905 Bushey Heath is a new entry for the Tump summit of the hill, which was previously combined with the County Top summit a few hundred metres away and 1m lower. Baggers who have visited the Tump summit will need to add a new log.

18929 Castle Camps airfield (128m, TL632418) is a new twin Tump with 5474 Great Wood. Twin Tump? I hear you say. I thought you didn't normally bother with creating new entries for alternative summits? Well, we don't usually, but we felt we had to make exception if the distance between the two was more than 5km. Why did this subject arise? Because Castle Camps airfield is over 20km from its twin, despite the drop between the two only being 20m. That's East Anglia for you.

Deleted Tumps

Relocations and Replacements

This includes relocations of just 200 metres up to distances of over a mile. **In most cases the new entry replaces the hillnumber of the old**, so users of both the DoBIH and hill-bagging.co.uk are encouraged to check that their logs are still valid. (In the case of major relocations – **they won't be!**) If the old location was included under a different name, this is indicated in the rightmost column.

'Relocations' due to typos in grid reference

It was necessary to include these because I know how hard it is to find the hill when you don't know which bit of the grid reference is faulty!

Number	Name	Region	New GR	Old GR
6534	Carn nan Gearran Bana	12A	NH333441	NG333441

Significant name changes

Not every name change is included here; there were typos that have been corrected, or instances where the Gaelic was subtly wrong. In such cases the sense of the name is still clear.
